

# BigStuff GEN4 – Touch Screen Dash - Wiring Diagram

COMPORT Connector  
on Main Engine Harness

Yellow Wire

White Wire

Ground

Switched 12vdc

The GEN4 Touch Screen Dash harness plugs into the 3-pin COMPORT connector on the Main Engine Harness. Pin A on the connector is CAN HIGH and Pin C in CAN LOW. Switched 12vdc power is provided to the red wire and the dash is grounded through the black wire. Extra pins are provided for adding inputs and outputs to the dash itself.
